

Flex-Fuel Vehicles

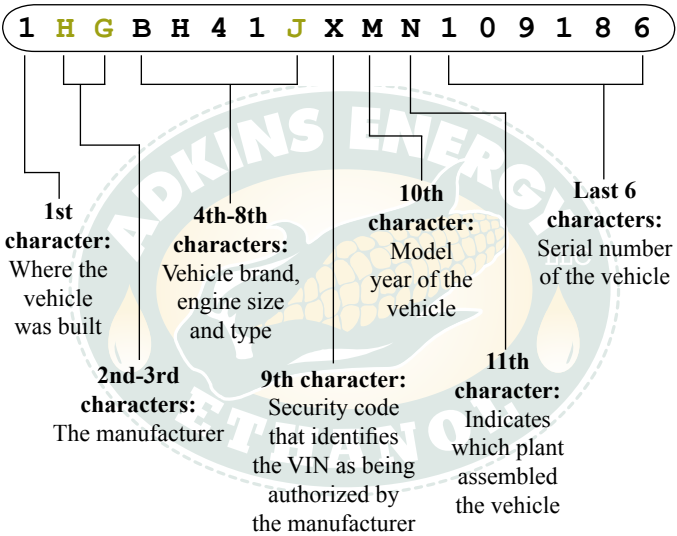

How to Read a Vehicle Identification Number

A car or truck's vehicle identification number (VIN) is required by federal regulation to contain specific information about the vehicle. You can identify key facts about your vehicle by the VIN.

Vehicle Identification Number

Flex-Fuel Vehicles (FFVs) can be identified by the 2nd, 3rd, and 8th digits of the VIN.

How to tell if your vehicle is E85 compatible?

1. Check to see if your vehicle is one listed below. If your vehicle is not listed, your vehicle is **NOT** E85 compatible.

Chrysler

Ford/Mercury

General Motors

Isuzu

Mazda

Nissan

2. If the vehicle is listed above, check the 8th digit in the Vehicle Identification Number (VIN) and correlate to what is listed as the 8th digit in the charts on the back.
